Open floor:

- We didn't have enough members to elect club officials during this meeting. Some members have been doing their part for many years in service to the club, and it is time for others to step up and do their part in growing our club to the next level. Over the past couple years, as president, I have heard various opinions on the direction and focus of the club. This is everyone's opportunity to help steer the club toward the future. Please seize this opportunity to make a difference. There are numerous positions open - your involvement is welcome and expected.
